# **Ammonium Nitrate Solution 57%**

SDS: P-18 Version: 1 Revision Date: 05/01/2018

## **SECTION 1: IDENTIFICATION**

**Product Identifier:** Ammonium Nitrate Solution 57%

**Product Names** 

and Synonyms: AN 20, AN 20-0-0, Ammonium Nitrate Solution (Weak), weak ANS, weak

ANSOL, 57% ANSOL

**Intended Uses:** Fertilizer solution and other industrial uses

## Name, Address, and Telephone of the Responsible Party:

Austin Powder Company 25800 Science Park Dr. Cleveland, OH 44122 216-464-2400 during normal business hours 877-836-8286 Toll Free 24/7 www.austinpowder.com

In Case of Emergency Call CHEMTREC – TOLL FREE 24/7 800-424-9300 DOMESTIC 1-703-527-3887 INTERNATIONAL AND MARINE

## **SECTION 2: HAZARDS IDENTIFICATION**

#### **Classification of the Substance or Mixture:**

Code	Hazard Class	Hazard Category
H319	Serious eye damage / eye irritation	2A
H303	Aspiration Hazard	5

#### **Label Elements**

## Warning

### **Hazard Statements**

Causes serious eye irritation May be harmful if swallowed

### **Precautionary Statements**

Wear eye protection, protective gloves recommended.

IF SWALLOWED: Get immediate medical attention. DO NOT induce vomiting.

IF ON SKIN: Wash contact area with soap and water. If irritation occurs, get medical attention.

Take off contaminated clothing and wash before reuse.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to

do. Continue rinsing. If eye irritation persists, get medical attention.

If exposed or concerned, or you do not feel well: Get medical attention.

Dispose of contents/container in accordance with all applicable regulations.

SDS: P-18 Version: 1 Revision Date: 05/01/2018 Page 1 / 7

Other Hazards:

Unknown Acute Toxicity: Not available

## **SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS**

Name	CAS No.	% (w/w)
Ammonium nitrate	CAS No. 6484-52-2	55 - 59
Water	CAS No. 7732-18-5	41-45

## **SECTION 4: FIRST AID MEASURES**

**Inhalation:** No known significant effects. If symptoms occur: move to open air, keep at rest and in

a position comfortable for breathing. Get medical attention. Ventilate suspected area.

**Skin Contact:** Wash contact areas with soap and water. Remove contaminated clothing. Wash

contaminated clothing before reuse.

**Eye Contact:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and

easy to do so. Continue rinsing. Get medical attention if irritation persists.

**Ingestion:** Rinse mouth. DO NOT induce vomiting. Get medical attention.

**Most Important Symptoms and Effects both Acute and Delayed:** 

**Inhalation:** May cause irritation to the respiratory tract, symptoms include:

sneezing, coughing, burning sensation of throat with constricting sensation of the

larynx and difficulty in breathing.

**Skin Contact:** May cause mild skin irritation. Symptoms may include: redness, pain, swelling, itching,

burning, dryness and dermatitis. May cause a more severe irritation or allergic reaction

in sensitive individuals.

**Eye Contact:** May cause serious eye irritation. Symptoms may include redness, pain, swelling,

itching, burning, tearing and blurred vision.

**Ingestion:** Overexposure by ingestion is unlikely under normal working conditions. If material has

been swallowed give small quantities of water to a conscious person, never give

anything by mouth to an unconciuos person. Do not induce vomiting.

Ammonium nitrate ingestion may cause methemoglobinemia. Initial manifestation of methemoglobinemia is cyanosis, characterized by blue lips, tongue and mucous membranes, with skin color being slate grey. Further manifestation is characterized by headache, weakness, dyspnea, dizziness, stupor, respiratory distress and death due to anoxia. If ingested, nitrates may be reduced to nitrites by bacteria in the digestive tract. Signs and symptoms of nitrite poisoning include methemoglobinemia, nausea, dizziness, increased heart rate, hypotension, fainting and, possibly shock.

### Indication of Any Immediate Medical Attention and Special Treatment Needed:

If exposed, concerned or you don't feel well, get medical attention.

SDS: P-18 Version: 1 Revision Date: 05/01/2018 Page 2 / 7

# SECTION 5: FIRE FIGHTING MEASURES

**Extinguishing Media** 

Suitable Extinguishing Media: Non-flammable. Material will not burn. Use an extinguishing agent

suitable fo the surrounding fire.

Unsuitable Extinguishing Media: None known

Special Hazards Arising from the Substance or Mixture

**Fire Hazard:** There is an extreme risk that ammonium nitrate involved in a fire may

detonate. In a fire, the water portion of the solution boils off quickly, leaving solid or molten ammonium nitrate. Dangerous if allowed to try

out, residue will exhibit oxidizing properties.

**Advice for Firefighters** 

**Precautionary Measures:** It is recommended that the amount and location of ammonium nitrate

solution stored near a fire be determined prior to committing firefighters

to fight the fire.

**Firefighting Instructions:** When fighting the initial fire, not involving ammonium nitrate, firefighters

should follow standard firefighting procedures for the materials involved.

**Hazardous Combustion** No unusual combustion products are expected. However, toxic fumes will be

present.

## **SECTION 6: ACCIDENTAL RELEASE MEASURES**

Personal Precautions, Protective Equipment and Emergency Procedures

**For Non-Emergency Personnel** 

**Protective Equipment:** Use appropriate personal protection equipment (PPE).

**Emergency Procedures:** Isolate the area from unnecessary personnel.

**For Emergency Personnel** 

**Protective Equipment:** Provide cleanup crew with proper PPE.

**Emergency Procedures**: Ventilate area.

**Emergency Precautions**: Stop the discharge if safe to do so. Ventilate area. Avoid dispersal

of spilled material runoff and contact with soil, waterways, drains

and sewers.

**Methods and Material for** 

**Containment and Cleaning Up:** Contact manufacturer or CHEMTREC.

SDS: P-18 Version: 1 Revision Date: 05/01/2018 Page 3 / 7

## **SECTION 7: HANDLING AND STORAGE**

**Precautions for Safe Handling** 

**Hygiene Measures:** Handle in accordance with good industrial hygiene and safety

procedures. Wash hands and other exposed areas with soap and water before eating, drinking, or smoking and again when leaving work.

Wash contaminated clothing before reuse.

Conditions for Safe Storage, Including Any Incompatibilities

**Technical Measures:** May be corrosive to metals. Smoking, open flames, and unauthorized

sparking or flame-producing devices are prohibited.

**Storage Conditions:** Do not store below 45°F.

Storage areas should be inspected regularly by an individual trained to identify potential hazards and ensure that all safety and security control measures are being properly implemented. All ammonium nitrate storage sites must comply with ATF, OSHA or NRCAN

regulations.

**Incompatible Materials:** Avoid contamination with combustible or flammable materials, strong

acids, strong bases, strong oxidizing agents, reducing agents, chlorinated compounds, copper (any alloys like bronze and brass), metal powders

and peroxides.

**Special Rules on Packaging:** Not regulated.

## SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

### Occupational exposure limits of ingredient(s):

Ammonium nitrate, CAS No. 6484-52-2		
USA ACGIH (nuisance dust)	ACGIH TWA (mg/m <sup>3</sup> )	10 mg/m³ – Inhalable particulate
USA OSHA (nuisance dust)	OHSA PEL (TWA) (mg/m <sup>3</sup> )	5 mg/m³ – Respirable (particulate)

#### **Exposure Controls:**

**Appropriate Engineering Controls:** Product should be handled and used under strictly controlled conditions.

Emergency eye wash fountains and safety showers should be available in the

vicinity of any potential exposure, but are not required.

**Personal Protective Equipment:** 

**Hand Protection:** Chemical resistant gloves are recommended but not required

**Eye Protection:** Safety glasses with side shields or safety goggles.

**Respiratory Protection:** Approved respiratory protection should be worn when recommended by a risk

assessment or if irritation is experienced.

SDS: P-18 Version: 1 Revision Date: 05/01/2018 Page 4 / 7

## **SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES**

**Information on Physical and Chemical Properties:** 

Appearance: Clear liquid

Odor: Slight ammonia odor

Odor threshold: Not available Vapor density: Not relevant

pH: 4-9

Freezing point (Crystal point): 5.5°C (42°F) Initial boiling point and boiling range: Not available

Flash point: Not available Evaporation rate: Not available Flammability: Will not burn

Upper / lower flammability or explosive limits: Not available

Vapor pressure: Not available

Bulk Density: 1.27 g/cc (10.58 lb/gal) Solubility (for ammonium nitrate in water): Complete

Partition coefficient: n-octol/water: Not available Auto-ignition temperature: Not available Decomposition temperature: 177°C (350°F)

Viscosity: Not relevant

Explosive properties: Mass detonation hazard when involved in a fire

Explosion Data – Sensitivity to Mechanical Impact: Not sensitive to mechanical impact Explosion Data – Sensitivity to Static Discharge: Not sensitive to static discharge

## SECTION 10: STABILITY AND REACTIVITY

**Reactivity and Chemical Stability:** Stable and non-reactive under normal conditions of transportation, storage,

handling and use.

Possibility of Hazardous Reactions: Polymerization will not occur.

**Conditions to Avoid:** Open flame and elevated temperatures. Do not allow to dry out.

**Incompatible Materials:** Avoid contamination with combustible or flammable materials, strong acids,

strong bases, strong oxidizing agents, reducing agents, chlorinated

compounds, copper (any alloys like bronze and brass), metal powders and

peroxides.

Hazardous Decomposition Products: No unusual fumes or decomposition products expected. However, toxic

fumes will be present.

## SECTION 11: TOXICOLOGY INFORMATION

**Acute Toxicity:** 

**LD50 (derived):** LD50 oral rat: 3757 mg/kg for 59% ammonium nitrate solution

**Skin Corrosion/Irritation:** Not classified

**Eye Damage/Irritation:** May cause serious eye irritation

Respiratory or Skin Sensitization: Not classified

Germ Cell Mutagenicity: Not classified

**Teratogenicity:** Not available

SDS: P-18 Version: 1 Revision Date: 05/01/2018 Page 5 / 7

## **Ammonium Nitrate Solution 57%** (SDS: P-18)

Carcinogenicity: Not classified

**Reproductive Toxicity:** Not classified

**Specific Target Organ Toxicity** 

(Single Exposure): Not classified

**Specific Target Organ Toxicity** 

(Repeated Exposure): Not classified.

Not classified **Aspiration Hazard:** 

Symptoms/Injuries Harmful if inhaled, causes methemoglobinemia. Symptoms may include

after Inhalation: headache, dizziness, nausea and a loss of coordination.

May cause mild skin irritation. Symptoms may include: redness, pain, Symptoms/Injuries after Skin Contact:

swelling, itching, burning, dryness and dermatitis. May cause a more

severe or allergic reaction in sensitive individuals.

Symptoms/Injuries May cause serious eye irritation. Symptoms may include redness,

after Eye Contact: pain, swelling, itching, burning, tearing and blurred vision.

Symptoms/Injuries Burning sensation. Abdominal pain. Abdominal cramps. Vomiting. after Ingestion: Ammonium nitrate ingestion may cause methemoglobinemia.

Although none are expected under normal conditions, inhalation **Chronic Symptoms:** 

exposure may cause methemoglobinemia and may damage respiratory

tract.

### LD50 and LC50 Data (ingredients):

Ammonium nitrate, CAS No. 6484-52-2		
LD50 Oral Rat	2,217 mg/kg of body weight	
LC50 Inhalation Rat	> 88.8 mg/l/4h	

### SECTION 12: ECOLOGY INFORMATION

Not available

## **SECTION 13: DISPOSAL CONSIDERATIONS**

Call manufacturer or CHEMTREC.

## **SECTION 14: TRANSPORTATION INFORMATION**

DOT	Not regulated
TDG	Not regulated
IMDG	Not regulated
IATA	Not regulated

SDS: P-18 Version: 1 Revision Date: 05/01/2018 Page 6 / 7

# **SECTION 15: REGULATORY INFORMATION**

### **US Federal Regulations:**

Emergency Planning and Community Right-To-Know Act (EPCRA), a/k/a Superfund Amendments and Reauthorization Act (SARA) Title III

Toxic Substances Control Act (TSCA)

TSCA Section 8

Ammonium nitrate, CAS No. 6484-52-2

•	Annioniani intrate, CAS No. 0404 SE E	
	SARA Section 311/312	Reactive Hazard
		Fire Hazard
		Health Hazard
	TSCA	Listed on the United States TSCA inventory

### **Canadian Regulations:**

Domestic Substances List (DSL)

Workplace Hazardous Materials Information System (WHMIS)

Ammonium nitrate, CAS No. 6484-52-2

DSL	Listed on the Canadian DSL
WHMIS Classification	Class C – Oxidizing Substance Class D, Division 2, Subdivision B – Toxic material causing other toxic effects.

## SECTION 16: OTHER INFORMATION, INCLUDING DATE OF LAST REVISION

This SDS was prepared in accordance with US (29 CFR 1900.1200) and Canadian (WHMIS 2015) requirements.

SDS: P-18 Initial Issue Date: 05/01/2018 Last Revision Date: n/a Version: 1

### Party Responsible for the Preparation of this Document:

Austin Powder Company Cleveland, OH 44122 216-464-2400

This information is based on Austin Powder Company's current knowledge and is intended to describe the product for the purposes of health and safety requirements only. It should not be construed as guaranteeing any specific property of the product.
