

E★STAR Pronto Connector

PRODUCT INFORMATION BROCHURE

E★STAR Pronto Connector is an assembly of two connectors with an interconnecting wire, used for connection of branches to the firing lines without the need of wire separation, stripping and joining.

To make the connection simply attach one connector to the branch bus wire and the other to the firing line bus wire. Connector can also repair a severed or damaged detonator leg wire.

Supplied in three versions Standard, HD and Tunnel.

BENEFITS

- Easy branch connection
- Easily repair damaged detonator wires
- No need for wire strippers or knives for connection
- Grease filled connectors ensure a water resistant tight seal
