AVALANCHE TAIL FIN ASSEMBLY

Tail Fin Assemblies are used with both of Austin Powder Avalanche's projectile avalanche control explosives, **Snow Launcher Classic**, **Snow Slugger** and **Thunderbolt**. The assemblies are engineered to help achieve appropriate flight paths, flight stabilization, and initiation of the projectile explosives. Each assembly contains an initiation mechanism and appropriate safety devices.

PRODUCT OVERVIEW

TECHNICAL DESCRIPTION

Plastic housing containing shot shell initiation mechanism and appropriate safety features required for stable flight of projectile avalanche control explosives.

APPLICATION RECOMMENDATIONS

- To be used by personnel trained in the use of avalanche control explosives.
- To be used only with Austin Powder Avalanche projectile explosives.
- Contact Austin Powder Avalanche for more information.

ADVANTAGES

- Engineered design to promote effective projectile flight.
- Integrated safety systems to prevent unintended detonations.
